

## Become **CERTIFIED**

Enroll now to start earning your Workers' Compensation Professional (WCP®) Designation Today!

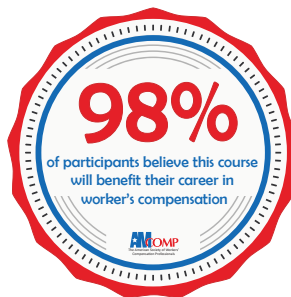

The American Society of Workers Comp Professionals, Inc. (AMCOMP) works to raise the professional standards of practice in the field of workers' compensation. Through its Workers Compensation Professional (WCP®) program, AMCOMP certifies professionals who demonstrate proficiency in workers' compensation by the successful completion of the WCP® course curriculum and final exam.

### **Train and certify your team with the WCP® designation from AMCOMP.**

Professionals from all areas of the workers' compensation industry, such as claims examiners, health care providers, attorneys, rehabilitation counselors, and auditors, benefit from earning the WCP® designation. It is strongly recommended for all employees of insurance companies, self-insured, agents, brokers, and third-party administrators as well as those from state agencies.

#### **The curriculum:**

- Workers Compensation History and Workplace Safety
- Employers and Employees Subject To the Workers Compensation Law
- Security Arrangement and Underwriting
- Standard Workers Compensation Policy, Endorsements and Federal Coverages
- Covered Occupational Events
- Mandated Benefits
- Cost Containment Strategies and Other Medical Issues
- Claims Handling, Fraud and Subrogation
- Program Administration
- The Rate-Making Process
- Exclusive Remedy and Bad Faith
- Economic Security Programs

## ENROLLMENT

**Interested professionals can pick the enrollment option that best fits their learning style and schedule.**

#### **SELF-STUDY**

Using the textbook and course guide, students will read the content and participate in a series of chapter assessments through an online learning platform. This track is entirely student-paced.

#### **VIRTUAL COURSE**

As a supplement to the textbook and course guide, the virtual course offers content in an online forum that allows students to connect with and learn from an instructor. Also available on-demand!

#### **SELF-STUDY + VIRTUAL COURSE**

This hybrid track combines the self-study and virtual course options to provide self-paced and instructor-led learning. Students will have access to the chapter reviews and assessments as well as the full virtual course.

#### **UNIVERSITY LOCATIONS**

This option provides students the opportunity to learn through direct instruction. Students participate in a full collegiate course hosted by university partners before being given access to the final exam.
